Diluted earnings per share	€ 3.09	€ 1.37
Book value per basic share outstanding ⁴	€ 34.51	€ 33.41
Tangible book value per basic share outstanding ⁴	€ 30.98	€ 29.90
Dividend per share (with respect to previous financial year)	€ 0.68	€ 0.45

¹ Based on profit (loss) attributable to Deutsche Bank shareholders after AT1 coupon; for further information, please refer to "Supplementary Information (Unaudited): Non-GAAP financial measures" of this report

² Twelve months period until the end of the respective reporting period compared to full year 2021

³ Noninterest expenses as a percentage of net interest income before provision for credit losses, plus noninterest income

⁴ For further information, please refer to "Supplementary Information (Unaudited): Non-GAAP financial measures" of this report

⁵ Defined as net revenues less noninterest expenses

⁶ At period end

⁷ Sustainable financing and ESG investment activities are defined in the "Sustainable Finance Framework" and "Deutsche Bank ESG Investments Framework" which are available at investor-relations.db.com; in cases where validation against the frameworks cannot be completed before the end of the reporting quarter, volumes are disclosed upon completion of the validation in subsequent quarters

⁸ Operating leverage is calculated as the difference between year on year change in percentages of reported net revenues and year on year change in percentages of reported noninterest expense

Due to rounding, numbers presented throughout this document may not sum precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Letter from the Chief Executive Officer

Dear Shareholders,

We said 2025 would be a decisive milestone for Deutsche Bank, and so it proved. In an environment shaped by geopolitical tensions, economic uncertainties and challenging market conditions, we achieved all the ambitious financial goals we had set ourselves. We also delivered the most profitable year in Deutsche Bank's history.

This underscores the strength and resilience of our Global Hausbank. We support our clients at all stages of their lives with deep, long-term partnerships, financial strength and sound advice. Clients rely on us to help them navigate safely through times of change and uncertainty, and this is more important than ever in the world we face today.

Our results in 2025 demonstrate just how much our clients value this. We ended the year with a pre-tax profit of € 9.7 billion the best result in the history of our bank and an increase of 84% compared to 2024, which was impacted by specific litigation items. Even excluding these effects, pre-tax profit would still be 40% higher than in 2024. Net profit was € 7.1 billion.

We delivered this record result by keeping our promises to you. On every dimension, we met our targets and objectives:

- Revenues grew 7% year on year to € 32.1 billion, the sixth consecutive annual increase and in line with our stated goal of around € 32 billion. Revenues have grown by 6% per year since 2021, the mid-point of our target range of 5.5% to 6.5%.
- Disciplined cost management was once again a vital success factor. Noninterest expenses were down 10% year on year. This, together with our revenue growth, enabled us to improve our cost/income ratio to 64%, from 76% in 2024, and in line with our target of below 65%. We proved that we can combine growth and cost discipline, and our increased operational efficiency enabled us to self-fund essential investments in our technology architecture, control systems and client platform.
- As a result, our post-tax return on tangible shareholders' equity, or RoTE, increased to 10.3%. With this, we met our headline target for 2025: RoTE of above 10%.
- We achieved all of this while maintaining a strong balance sheet and a very robust capital base. At 14.2%, our Common Equity Tier 1 (CET1) ratio at the end of 2025 was even slightly above our target range of 13.5% to 14.0%.

Strong financial performance has enabled us to continuously increase our dividends in recent years. We paid out € 0.68 per share or € 1.3 billion in total, in 2025, in respect of the financial year 2024. We are determined to continue on this course, by proposing a dividend of € 1.00 per share to the Annual General Meeting in May 2026, representing a distribution of € 1.9 billion, for the year 2025. In addition, we have secured the customary authorizations for € 1 billion in further share buybacks. In total, this will take delivered and proposed capital distributions for the financial years 2021 to 2025 up to € 8.5 billion – ahead of our original commitment to you of € 8 billion. If business develops in line with our expectations in 2026, we will aim to seek authorization for further share buybacks later this year.

These results, and our growing capital distributions to shareholders, underpin how far we have transformed Deutsche Bank in recent years. Our aim is to create sustainable value: for our clients, for our employees and for you, our shareholders. We have made consistent progress on this. Our share price, which has essentially doubled in the past year, reflects this success.

Four strong, complementary businesses

Our success in 2025 rests on four strong pillars. All four businesses significantly improved their profitability and, for the first time, all four achieved a double-digit RoTE. This shows the strength of our diversified Global Hausbank across four complementary businesses, and the years of outstanding work that has been done in each business division.

The **Corporate Bank** delivered a strong performance in 2025. Pre-tax profit increased by 24% to € 2.6 billion, thanks to cost reductions and lower loan loss provisions over the year. Revenues were essentially stable year on year if adjusted for currency movements. The business grew deposit volumes by € 17 billion, to € 329 billion, during the year; this reflects our strong relationships with our corporate clients and the quality of our product offering.

In the **Investment Bank**, profit before tax was up 20% to € 4.0 billion. Revenues grew by 9% to € 11.5 billion, thanks to the excellent performance of the Fixed income & Currency (FIC) business. Here, we gained further market share and firmly established our position among the world's leading houses. Revenues in Investment Banking & Capital Markets (IBCM) dipped by 6%, mainly due to certain mark-to-market losses on Leveraged Debt Capital Market positions early in the year.

At our first meeting on January 29 (Part 1) and on February 6 (Part 2), we addressed the actual financial results presented along with the planned key figures and analysts' estimates. Deviations were discussed in detail. In addition, we deliberated on the Management Board's preliminary proposal for the dividend, while also taking into account the regulatory requirements for capital funding, and we addressed the finance planning for 2025-2027. Representatives of the Joint Supervisory Team of the European Central Bank participated in the meeting, and we discussed the outcomes of the Supervisory Review and Evaluation Process (SREP) 2024. The Management Board provided an update on the development of the bank's business, current developments at DWS and the status of the remediation of regulatory orders. While taking into account recommendations of the Compensation Control Committee and following consultations with the bank's Compensation Officer and independent external compensation consultants, we determined the level of the variable compensation for the Management Board members for the 2024 financial year. In this context, we also discussed the respective Management Board members' achievement levels for 2024 and the plan rules for the year 2025, and we set the objectives for the Management Board along with the relevant measurement criteria for the 2025 performance period. We resolved on the disclosure by name of our financial experts on the Supervisory Board.

At our meeting on March 12 and 13 in Berlin, after the Management Board's reporting and a discussion with the auditor, and based on the Audit Committee's recommendation, we approved the Consolidated Financial Statements and Annual Financial Statements for 2024 and agreed to the Management Board's proposal for the appropriation of distributable profit. We addressed the financial accounting system, the system of internal controls and the risk management system and discussed the assessments of the Management Board and auditor with regard to their appropriateness and effectiveness. Based on the Audit Committee's recommendation, we determined that there are no objections to be raised regarding the Group's separate Non-Financial Report in accordance with Section 315c of the German Commercial Code (HGB) in conjunction with Sections 289c to 289e HGB as well as the European Union's (EU) Taxonomy Regulation and the delegated acts adopted in this context, also based on the final results of our own inspections. We also discussed and approved the Report of the Supervisory Board. The Management Board presented to us the "Own Workforce" section of the Sustainability Statement in accordance with European Sustainability Reporting Standards (ESRS) as well as the report on tech risk and information security risks (Information Security Posture Report). Furthermore, the Management Board reported to us on the current market environment and the geopolitical environment, the bank's capital funding and the remediation status of regulatory enforcement actions and the related critical findings. At the proposal of the Compensation Control Committee, we approved, among other things, the objectives for Dr. Marcus Chromik as the designated Chief Risk Officer (CRO), who took on this office as of May 20, 2025. We addressed the bank's diversity aspirations, topics related to succession planning and the assessment in accordance with Section 25d (11) of the German Banking Act (KWG), which was performed with the assistance of external advisors. Furthermore, we addressed the topics for the Annual General Meeting and approved the proposals for the agenda. Based on the recommendation of the Audit Committee, we resolved to approve the proposal to the Annual General Meeting for the election of the auditor of the Annual Financial Statements and Consolidated Financial Statements for the 2025 financial year. Furthermore, the shareholder representatives of the Supervisory Board adopted the resolution on the Chair of the next Annual General Meeting. We noted the report of the Management Board on changes in the regional advisory councils in Germany in accordance with Section 8 of the Articles of Association.

In our extraordinary meeting on March 27, we addressed Management Board matters. We resolved to appoint Mr. Raja Akram as Chief Financial Officer following a transitional phase, to renew Mr. Christian Sewing's Management Board Service Contract and to extend Mr. Fabrizio Campelli's appointment. Please see the "Personnel issues" Section for further details. In addition to Mr. Fabrizio Campelli's existing tasks, we expanded his responsibility on the Management Board with effect from May 1 to include the bank's Americas region, previously led by Professor Dr Stefan Simon, who left the bank.

In our meeting on May 21, we addressed the forthcoming Annual General Meeting. The Management Board also reported to us on geopolitical and macroeconomic changes as well as political developments during the preceding months impacting the bank's business environment, along with the risks and opportunities in the operating environments as well as the bank's resilience. The Management Board also updated us on, among other things, the current status of the litigation cases with the highest risks and regulatory proceedings as well as the current status of developments and challenges in the remediation of regulatory enforcement actions and the related critical findings. Furthermore, we addressed the Tech Risk Report and Information Security Posture Report of the Management Board.

In our meeting on May 22, we resolved to dissolve the Regulatory Oversight Committee and to reassign its tasks and approved the related amendments to some of the Terms of Reference of the committees of the Supervisory Board. Furthermore, we reviewed the composition of our committees, and discussed adjustments, which we subsequently approved, to the composition of the Audit Committee, the Risk Committee, the Technology, Data and Innovation Committee, the Strategy and Sustainability Committee and the Compensation Control Committee, while also taking into consideration our Profile of Requirements. Please see the sections "Procedures of the Supervisory Board and its committees" and "Members of the Supervisory Board and its committees" in the Corporate Governance Statement for further details. We also resolved to issue the audit mandate to EY GmbH & Co. KG Wirtschaftsprüfungsgesellschaft.

In our meeting on July 30 and 31, we addressed the results of the external review of our system of Management Board compensation. This review concluded that the system is appropriate and that the compensation parameters are aligned to and support the business strategy and risk strategy. Based on the recommendation of the Compensation Control Committee, we additionally engaged our auditor to audit the contents of the Compensation Report. Furthermore, we discussed internal governance topics related to the Management Board and Supervisory Board. We addressed the annual review and adjustments as required in our internal policies and procedures, which we subsequently approved. The Management Board informed us of the results of the employee survey 2025, along with the changes compared to the prior year and their underlying causes. We also received a report on the bank's personnel strategy. The Management Board reported to us on the reactions of the market and our stakeholders to the publication of the Interim Report. The Management Board gave an overview of the execution of the strategy and financial targets as well as the current market environment. Together with the Management Board, we addressed the annual assessment letter of one of the bank's key regulators. The Management Board also reported to us on tech risk and the information security posture. Furthermore, the shareholder representatives on the Supervisory Board adopted the resolutions necessary to exercise the shareholder rights in subsidiaries of Deutsche Bank Aktiengesellschaft in accordance with Section 32 of the Co-Determination Act (MitbestG). We supported the Management Board in the strategy work in preparation for the investor day event in November 2025.

To address upcoming topics in a timely manner, in an extraordinary meeting on September 11, we discussed Management Board succession planning considerations.

In our meeting on November 5 and 6, we focused on strategy. The Management Board presented not only the Group strategy, but also the business strategies and related risk strategies of the individual business divisions and infrastructure areas, including in the various regions, and of DWS, which we subsequently deliberated on with the Management Board. Another focal point of our meeting was on the investor day event, which we advised on and discussed with the Management Board. We also addressed succession planning topics, and based on the Nomination Committee's recommendation, we resolved to nominate Mr. Alexander Wynaendts for re-election to the Supervisory Board for another four-year term of office by the Annual General Meeting on May 28, 2026. Mr. Alexander Wynaendts was not able to participate in this meeting for personal reasons. Furthermore, the shareholder representatives on the Supervisory Board adopted the resolutions necessary to exercise the shareholder rights in subsidiaries of Deutsche Bank Aktiengesellschaft in accordance with Section 32 of the Co-Determination Act (MitbestG). We issued our approval in principle to the issuance of capital instruments.

Attending our extraordinary meeting on December 10 were representatives of the Joint Supervisory Team of the European Central Bank, where we discussed the outcomes from the Supervisory Review and Evaluation Process (SREP) 2025. We also addressed topics of succession planning. The Management Board reported on the reactions to the investor day event and on tech risk and the information security posture. The Management Board provided further information on the strategy and capital plan for 2026 to 2028. We resolved on the disclosure by name of our compensation experts on the Supervisory Board.

Committees of the Supervisory Board

The members of the individual committees and the changes during the financial year are specified in the Corporate Governance Statement in the Annual Report. The Chairpersons of the respective Committee were responsible for convening these meetings, setting out and aligning the agenda for discussion and ensuring materials were prepared and shared with the members of the Supervisory Board as early as possible.

The Chairman's Committee met 14 times during the reporting period, including five times together with the Nomination Committee. Four meetings were conducted on-site, nine per video conference, and one as a hybrid meeting. Five ordinary and nine extraordinary meetings took place. The Chairman's Committee addressed Management Board and Supervisory Board matters in depth, in addition to topics and legal questions relating to corporate governance as well as ongoing topics between the meetings of the Supervisory Board. It also prepared the Supervisory Board's meetings in plenum. Among other things, this involved handling the preparations for the dissolution of the Regulatory Oversight Committee on May 22, 2025, and a related reassignment of its tasks to other Supervisory Board committees.

The Chairman's Committee addressed the preparations for personnel-related changes on the Management Board in consultation with the Nomination Committee, including the adjustment of the areas of functional responsibility, the review and amendments to the extent required of the Management Board service contracts, the terms of reference the Supervisory Board is responsible for as well as Supervisory Board-internal documents, in addition to preparations for the Annual General Meeting.

The Committee reviewed the outside directorships of the Management Board members, the assumption of costs and supporting services/benefits for current and former members of the Management Board, costs for the advisors of the Supervisory Board and the voluntary self-commitment by all shareholder representatives on the Supervisory Board to invest a portion of their Supervisory Board compensation in shares of the bank. The Chairman's Committee also addressed, as delegated by the Supervisory Board, the bank's issuance of Additional Tier 1 (AT1) capital instruments.

In 2025, the Risk Committee held eight meetings – four were with physical attendance, three were hybrid meetings, and one was a video conference. Two meetings were conducted jointly with the Compensation Control Committee. As in previous years, the Risk Committee addressed periodically recurring topics such as the annual Group risk appetite statement, the bank's resolution and recovery plans, as well as the internal process to ensure capital adequacy and an appropriate liquidity position. The Committee also focused on operational risk, which was addressed again over the course of 2025 in general and more specifically through several in-depth analyses. The topics covered included the relevant risk taxonomy, the development of a method to handle stress scenarios and metrics for the comprehensive assessment of non-financial risks, including those for the assessment of financial crime and compliance risks. The Committee continued the assessment of the business-specific risks in the Private Bank, Corporate Bank and Investment Bank. Furthermore, it addressed the repercussions of ongoing political and economic developments, including Germany's political and economic situation, conflicts in international trade and the Middle East, as well as the continued impacts on the bank from developments in the commercial real estate sector. In addition, the Committee monitored the bank's key transformation initiatives in connection with the Risk function. The Committee focused on other regulatory priorities, including the Supervisory Review and Evaluation Process (SREP) and topics in connection with third-party vendor risks. Most recently, the Risk Committee reviewed the risk management policies and procedures and the bank's concentration risks. Furthermore, the Committee addressed the impacts of the compensation framework on the bank's capital, risk, liquidity and profitability situation. Since the dissolution of the Regulatory Oversight Committee in May 2025, the Risk Committee has addressed litigation cases with the highest risks from the bank's perspective. The Management Board also reported on its focus on the management of cyber risks.

The Audit Committee met five times in 2025. Three meetings were conducted with attendance on-site, one as a hybrid meeting and one as a video conference. The Committee supported the Supervisory Board in the monitoring of the financial reporting process and intensively addressed the Annual Financial Statements and Consolidated Financial Statements, the interim and earnings reports well as the separate Non-Financial Report. The areas of focus included developments in the banking sector around the globe, the recognition of credit loss provisions and legal matters as well as the new requirements pursuant to the Corporate Sustainability Reporting Directive (CSRD) for Environmental, Social and Governance (ESG) reporting. The Committee specified "end-of-life" IT applications as an area of focus for the audit, in addition to the implementation of requirements pursuant to the EU Regulation on operational resilience in the financial sector (Digital Operational Resilience Act (DORA)). Furthermore, the Committee regularly addressed the monitoring of the effectiveness of the control functions (in particular, Compliance, Anti-Money Laundering function, Group Audit). The monitoring of the Management Board's measures for the remediation of findings in the Know-Your-Customer (KYC) processes was another focal point of the Committee's work, in addition to the Findings Management program for the accelerated reduction of critical findings. Furthermore, the Audit Committee ensured it was kept informed regarding developments in connection with the Wirecard insolvency with any potential implications for the independence of the auditor of our annual and consolidated financial statements.

The Nomination Committee met a total of nine times during the reporting period, including two extraordinary meetings together with the Chairman's Committee. Five ordinary and four extraordinary meetings took place. Four meetings were conducted on-site, and four as video conferences, and one was a hybrid meeting. The Nomination Committee extensively addressed aspects of the succession planning for the Management Board and Supervisory Board in consideration of the statutory and regulatory requirements, the position descriptions, diversity principles and the profile of requirements of the Supervisory Board. In consultation with the Chairman's Committee, the Nomination Committee prepared proposals for the Supervisory Board's decisions on the alignment of the Management Board to the next phase of its strategy, including amendments to the Business Allocation Plan. This involved the appointment of Mr. Raja Akram to the Management Board with effect from January 1, 2026, and the assignment of responsibilities as Chief Financial Officer as of March 15, 2026, the renewal of Mr. Christian Sewing's Management Board service contract until April 30, 2029, the extensions of Mr. Fabrizio Campelli's Management Board appointment until October 31, 2028, and Mr. Claudio de Sanctis's until June 30, 2029, as well as the termination of the Management Board appointment of Professor Dr. Stefan Simon, who left the bank at the end of April 30, 2025. Furthermore, the resolution was prepared on the extension of Mr. Bernd Leukert's Management Board appointment until June 30, 2026. The Nomination Committee addressed in-depth the profile of requirements for suitable candidates for the forthcoming elections to the Supervisory Board in each case in 2025 and 2026. In this context, it submitted proposals for the election of Dr. Klaus Moosmayer and Ms. Kirsty Roth as well as the re-election of Mr. Sigmar Gabriel and Mr. Frank Witter to the Supervisory Board by the Annual General Meeting on May 22, 2025. The Committee also addressed the election proposals to the Annual General Meeting in 2026 and prepared the nomination of Mr. Alexander Wynaendts for another four-year term of office as Supervisory Board Chairman. In his function as Chairman of the Nomination Committee, Mr. Alexander Wynaendts refrained from participating in the discussion of his nomination and voted to abstain on the resolution. As a result of the new elections to the Supervisory Board and the dissolution of the Regulatory Oversight Committee on May 22, 2025, adjustments to

the composition of the committees were prepared in consultation with the Chairman's Committee. In addition, the Committee addressed the induction programs for the new members of the Management Board and Supervisory Board, the training for the Management Board and Supervisory Board, ongoing suitability ("fit and proper") topics as well as the regular review of our internal policies and procedures. Other topics included the advancement of diversity in the bank and at the Management Board level as well as the annual assessment of the Supervisory Board and Management Board in accordance with Section 25d (11) of the German Banking Act (KWG). The assessment for the 2024 financial year was addressed with the assistance of an external, independent advisor and the results were discussed by the Nomination Committee and the Supervisory Board plenum in March 2025.

The Compensation Control Committee met five times in 2025, including two joint meetings with the Chairman's Committee. Two meetings were conducted on-site, two as hybrid meetings and one as a video conference. At its meetings, the Committee addressed in particular the monitoring of the design of the compensation systems of the Management Board and employees and, together with the Risk Committee, assessed the effects of the compensation systems and variable compensation for the 2024 financial year on the risk, capital and liquidity situation. The Compensation Officer presented his Compensation Control Report, which was subsequently discussed by the Committee. The Compensation Control Committee submitted proposals to the Supervisory Board on the Management Board members' target compensation amounts and their appropriateness, on the objectives for 2025, and for determining the variable compensation of the Management Board for the year 2024. In light of the personnel-related changes on the Management Board, the Committee also addressed compensation decisions and the corresponding adjustment of the individual objectives. Furthermore, it dealt with regulatory developments and the remediation of regulatory findings on compensation topics and addressed, also with the support of external advisors, the examination of the existence of the preconditions for the suspension, forfeiture or claw-back of elements of variable compensation of (former) members of the Management Board. To the extent required, it adopted resolutions and developed recommendations on resolution proposals for the Supervisory Board plenum. Another focal point was addressing the report on the compensation of the Management Board and Supervisory Board, which was to be submitted for approval by the Annual General Meeting and was subsequently to be published along with the auditor's opinion. Following the Annual General Meeting 2025, the Compensation Control Committee, with the support of internal functions, developed recommendations for the improvement of the transparency of the Compensation Report, which were implemented for the 2025 financial year. The Compensation Control Committee discussed and adopted a resolution proposal recommending that the Supervisory Board mandate the financial statements auditor to additionally audit the contents of the Compensation Report for 2025. Furthermore, the Committee monitored the identification of Material Risk Takers and the determination of the total amount of variable compensation for the 2024 financial year as well as the decisions on the compensation for the heads of the control functions. The Compensation Control Committee also reviewed the use and effectiveness of measures available in the compensation system for dealing with breaches of legal regulations as well as internal and external rules, policies and procedures (consequence management). With the support of internal functions and external advisors, the Compensation Control Committee addressed the Supervisory Board's compensation.

The Regulatory Oversight Committee met once in 2025. The meeting was conducted as a hybrid meeting. In this meeting, the Committee adopted the Final Report on its activities and the focal points of its monitoring and advising in the period from July 2022 to March 2025, which it subsequently handed over to the Supervisory Board for further use. The Management Board reported on contacts with regulators with a significant relevance for the bank's business activity, on the status of the remediation of regulatory enforcement actions and the related critical findings, the significant internal investigations and their progress, as well as the litigation cases with the highest risks from the bank's perspective. Following the dissolution of the Regulatory Oversight Committee with effect from May 22, 2025, its responsibilities were redistributed to other Supervisory Board committees, in particular the Audit Committee, the Risk Committee and the Compensation Control Committee, or retained at the Supervisory Board level. Please see the "Procedures of the Supervisory Board and its committees" Section in the Corporate Governance Statement for further details.

The Strategy and Sustainability Committee conducted six meetings, including two extraordinary meetings. Three meetings were held on-site, one was a hybrid meeting and two were conducted as video conferences. At its meetings, the Committee intensively addressed the bank's strategic transformation and regularly obtained reports from the Management Board. Particular focal points in this context were the strategic progress made in the year 2025, the path to achieving the financial targets for the year 2026 and the planning for the following years. In this context, the Committee addressed the sustainability strategy, the progress in the key transformation initiatives as well as the ongoing development of the bank's Target Operating Model. Another focal point of the Strategy and Sustainability Committee's work was the sustainability strategy. This involved, among other things, addressing the progress in the implementation of the sustainability strategy, the planning for the sustainable finance and investment volumes as well as the ongoing development of the sustainability strategy based on the strategies for the Group and the business divisions. The Committee also deliberated on the strategies for the bank's home market, Germany, and for the global market environment. Other topics of reporting and discussion were the strategy of DWS, the digitalization strategy, the client-centricity program and investments in the bank's business divisions.

The Technology, Data and Innovation Committee met four times. Three meetings were conducted on-site, and one meeting was held as a video conference. The topics the Committee focused on in 2025 included, in particular, IT and cybersecurity as well as the Group-wide technology strategy and its implementation in the business divisions and infrastructure areas. In this context, the Committee received reports on the progress in modernizing and simplifying the bank's IT infrastructure and application landscape, and it discussed the importance of technology for the business divisions and infrastructure areas. Regarding IT and cybersecurity topics, the Committee received reports on the current security situation of the bank as well as an external market view on information security. In this context, the Technology, Data and Innovation Committee discussed current macro-trends as well as the principles and objectives of information security and cloud risk management. Furthermore, the Committee addressed in detail the significant IT risk factors for the bank and discussed the measures for and progress in reducing such risks. In addition, the Committee discussed regulatory matters relating to technology and infrastructure and received reports on the migration to the cloud, the bank's data management and implementation of key bank-wide technology programs. Furthermore, the Technology, Data and Innovation Committee discussed the costs of the bank's technology area, including the material cost drivers and actions to optimize the cost base. Moreover, the Committee also addressed innovations relating to artificial intelligence and machine learning, along with their governance, responsible implementation and usage in the bank.

Meetings of the Mediation Committee, established pursuant to the provisions of Germany's Co-Determination Act (MitbestG), were not necessary.

Participation in meetings

During the reporting period, the Supervisory Board members participated in the meetings of the Supervisory Board and of the committees in which they were members, as shown in the following. Participation was either in person or via video conference. There were no cases of participation by telephone.

Income tax expense was € 2.6 billion in 2025, compared to € 1.8 billion in the prior year. The effective tax rate of 27% in 2025 was positively impacted by the German Tax Reform and the geographical mix of income, compared to 34% in 2024, which was mainly affected by litigation charges that were non-tax deductible.

Common Equity Tier 1 capital ratio was 14.2% at the end of 2025, slightly above the bank's operating target range of 13.5% to 14.0%, and up from 13.8% at the end of 2024. Organic capital generation from increased profitability offset the combined impacts of higher capital distributions and coupon payments, regulatory impacts and business growth during the year.

Adjusted costs, nonoperating cost, net interest income in the key banking book segments, and post-tax return on average tangible shareholders' equity are Non-GAAP financial measures. Please refer to "Supplementary Information (Unaudited): Non-GAAP Financial Measures" of this Annual Report for the definitions of such measures and reconciliations to the IFRS measures on which they are based. With effect from the first quarter of 2026, Deutsche Bank will discontinue the separate reporting of adjusted costs and nonoperating costs.

Deutsche Bank Group

Deutsche Bank's Organization

Headquartered in Frankfurt am Main, Germany, Deutsche Bank is the largest bank in Germany and one of the largest financial institutions in the world, as measured by total assets of € 1,435 billion as of December 31, 2025. As of that date, the bank had 89,879 full-time equivalent internal employees and operated in 55 countries with 1,179 branches, of which 64% were located in Germany.

Deutsche Bank Value Chain

Deutsche Bank's business model considers impacts, risks and opportunities in relation to Environmental, Social and Governance matters along the bank's value chain, which comprises its upstream value chain, its own operations and its downstream value chain. The following chart illustrates Deutsche Bank's value chain and describes its components.

Intangible resources

The most important intangible resources for Deutsche Bank's business model from an economic point of view are its customer relationships and its workforce. Other important intangible resources are the bank's brand name and its data and software. When required by IFRS, intangible resources are recognized in the balance sheet and described in the consolidated financial statements.

Impacts, risks and opportunities for the bank's material topics in relation to sustainability are described in the "Sustainability Statement".

Deutsche Bank's organizational model

As of December 31, 2025, the bank was organized into the following business segments:

- Corporate Bank
- Investment Bank
- Private Bank
- Asset Management
- Corporate & Other

Deutsche Bank has a country and regional organizational layer to facilitate a consistent implementation of global strategies.

The bank has operations or dealings with existing and potential customers in most countries in the world. These operations and dealings include working through:

- Subsidiaries and branches
- Representative offices
- One or more representatives assigned to serve customers

Capital expenditures or divestitures related to the business segments are included in the respective corporate division overview below.

Management structure

The Management Board has structured the Group as a matrix organization, comprising business segments and infrastructure functions operating in legal entities and branches across geographic locations.

The Management Board is responsible for the management of the company in accordance with the law, the Articles of Association and the Terms of Reference for the Management Board with the objective of creating sustainable value in the interests of the company. It considers the interests of shareholders, employees and other company-related stakeholders. The Management Board manages Deutsche Bank Group in accordance with uniform guidelines; it exercises general control over all entities and branches.

The Management Board decides on all matters prescribed by law and the Articles of Association and ensures compliance with the legal requirements and internal guidelines (compliance) and also takes the necessary measures to ensure that adequate internal guidelines are developed and implemented. The Management Board's responsibilities include the bank's strategic management and direction, the allocation of resources, financial accounting and reporting, control and risk management, as well as corporate control and a properly functioning business organization. The members of the Management Board are collectively responsible for managing the bank's business.

The allocation of functional responsibilities to the individual members of the Management Board is described in its Business Allocation Plan, which sets the framework for the delegation of responsibilities to senior management below the Management Board. The Management Board endorses individual accountability of senior position holders as opposed to joint decision-taking in committees. At the same time, the Management Board recognizes the importance of having comprehensive and robust information across all businesses in order to take well informed decisions. Governance fora are established across the bank with the purpose of providing the necessary information to support the accountable individuals in their decision-making process.

Corporate Bank

[Corporate division overview](#)

Corporate Bank is primarily focused on serving corporate clients, including the German "Mittelstand", larger and smaller sized commercial and business banking clients in Germany as well as multinational companies. The division also provides financial institutions with certain transaction banking services. Corporate Bank reports revenues based on three client categories: Corporate Treasury Services, Institutional Client Services and Business Banking.

There have been no significant capital expenditures or divestitures since January 1, 2023.

[Products and services](#)

Corporate Bank is a global provider of cash management, lending, trade finance, trust and securities services, and risk management solutions. Cash management services include integrated payments and FX solutions. Trade finance and lending offering spans from documentary and guarantee business to structured trade finance and lending. Trust and securities services cover depository receipts, corporate trust, document custody and securities services. Focusing on the finance departments of corporate and commercial clients and financial institutions in Germany and across the globe, its holistic expertise and global network allow the bank to offer integrated solutions.

In addition to Corporate Bank's product suite, coverage teams provide clients with access to the expertise of Investment Bank.

Distribution channels and marketing

The corporate coverage function of Corporate Bank focuses on international mid and large corporate clients and is organized into three units: Global Coverage, MidCorps Coverage and Risk Management Solutions. Coverage includes multi-product generalists covering headquarter level and subsidiaries via global, regional and local coverage teams for multinational companies. MidCorps Coverage includes multi-product generalists with a special focus on medium sized enterprises. Risk Management Solutions includes Foreign Exchange, Emerging Markets and Rates product specialists. This unit is managed regionally in Asia Pacific, Middle East & Africa, Americas and Europe to ensure close connectivity to clients.

Corporate clients are served out of all three of the Corporate Bank's client categories. Corporate Treasury Services covers mid and large corporate clients across two brands, Deutsche Bank and Postbank, and offers the whole range of solutions across cash, trade financing, lending and risk management for the corporate treasurer. Institutional Client Services comprises of Cash Management for institutional clients and Trust and Securities Services. Business Banking covers small corporates and entrepreneur clients and offers a largely standardized product suite and selected contextual-banking partner offerings (e.g., accounting solutions).

Investment Bank

Corporate division overview

Investment Bank combines Deutsche Bank's Fixed Income & Currencies and Investment Banking & Capital Markets (renamed in the fourth quarter of 2025 from "Origination & Advisory") businesses, as well as Deutsche Bank Research and Other. The Investment Bank focuses on its traditional strengths in these markets, bringing together wholesale banking expertise across risk management, sales and trading, investment banking and infrastructure. This enables the Investment Bank to align resourcing and capital across its client and product perimeter to effectively support the bank's strategic goals.

In April 2023, Deutsche Bank announced that it reached an agreement on an all-cash offer for the acquisition of Numis Corporation Plc ("Numis"). On October 13, 2023, Deutsche Bank completed the transaction and acquired a 100% interest in Numis for a cash purchase price of GBP 397 million. After the initial purchase price allocation, goodwill of € 233 million related to the transaction was identified. Deutsche Bank assigned the identified goodwill to the Investment Bank cash generating unit (CGU). Given the value of the Investment Bank CGU, the goodwill was considered impaired and written off in the fourth quarter of 2023.

There have been no significant divestitures since January 1, 2023.

Products and services

Fixed Income & Currencies is split into two sub-categories: "Fixed Income & Currencies: Financing", which provides comprehensive, customized financing solutions across industries and asset classes; and "Fixed Income & Currencies: Markets" (renamed in the fourth quarter of 2025 from "Fixed Income & Currencies: Ex-Financing"), which combines institutional sales, trading and structuring expertise across Foreign Exchange, Rates, Emerging Markets and Credit Trading. The Fixed Income & Currencies business operates globally and provides both corporate and institutional clients liquidity, market making services and a range of specialized risk management solutions across a broad range of Fixed Income & Currencies products. The application of technology and continued innovation of the transaction lifecycle processes is enabling Deutsche Bank to increase automation/electronification in order to respond to client and regulatory requirements.

Investment Banking & Capital Markets is responsible for the bank's Mergers and Acquisitions business and Capital Markets businesses across Debt and Equity. The IBCM franchise comprises regional and industry-focused product and coverage teams, leveraging senior relationships to deliver a range of advisory and financial products and services to the bank's clients in partnership with the Fixed Income & Currencies franchise and other divisions of the bank.

Distribution channels and marketing

Coverage of the Investment Bank's clients is provided principally by three groups working in conjunction with each other: The Institutional Client Group, which houses the debt sales team, Investment Banking Coverage within Investment Banking & Capital Markets and Risk Management Solutions in Corporate Bank, which covers capital markets and treasury solutions. The close cooperation between these groups helps to create enhanced synergies leading to increased cross selling of products/solutions to clients.

Private Bank

Corporate division overview

Private Bank serves personal and private clients, wealthy individuals, entrepreneurs and families. The international businesses also focus on commercial clients in selected markets. Private Bank is organized along the client sectors Wealth Management (renamed in the fourth quarter of 2025 from Wealth Management & Private Banking) and Personal Banking.

This client-centric approach reflects the aim to serve clients in a more targeted and effective way across the Private Bank. Wealth Management combines the coverage of private banking, high-net-worth and ultra-high-net-worth clients, as well as business clients in selected international markets. The client sector Personal Banking serves retail and affluent customers as well as commercial banking clients in Italy and Spain (i.e., all small business clients and small sized corporate clients that are not covered as part of the Wealth Management client sector).

There have been no significant capital expenditures or divestitures since January 1, 2023.

Products and services

Private Bank's offers a range of payment and account services, credit and deposit products as well as investment advice. These offerings include products which provide its clients access to Sustainable Finance lending and ESG investment solutions based on specified classification and due diligence methodologies including ESG strategies, ratings and exclusion criteria.

Personal Banking Germany pursues a differentiated, customer-focused approach with two strong and complementary main brands: Deutsche Bank and Postbank. The Deutsche Bank brand provides private customers with banking and financial products and services, including individualized advisory solutions. The Postbank brand focuses on offering retail customers standard products and daily retail banking services supported by direct banking capabilities. In cooperation with Deutsche Post DHL AG, the retail bank in Germany also offers postal and parcel services in selected Postbank branches. In the international markets of Italy, Spain and India, the bank provides retail customers with daily banking services as well as investment advisory solutions.

Wealth Management globally offers private banking, high-net-worth and ultra-high-net-worth clients bespoke and sophisticated services in planning, managing and investing wealth, financing personal and business interests and servicing institutional and corporate needs.

Distribution channels and marketing

Private Bank pursues an omni-channel approach, enabling customers to choose flexibly among different ways to access services and products.

The distribution channels include branch networks, supported by advisory and customer call centers, self-service terminals and digital offerings, such as online and mobile banking. Private Bank also collaborates with self-employed financial advisors and other sales and cooperation partners, including Business-to-Business-to-Consumer partners in Germany. For Wealth Management clients, the Private Bank deploys a client coverage team model with relationship and investment managers supported by client service executives, who assist with wealth management services and open-architecture products. In Germany, Deutsche Oppenheim Family Office AG provides family office services, discretionary funds and advisory solutions.

Expanding digital capabilities remains a strong focus across the businesses, as client behavior continues to shift towards digital channels. The Private Bank will continue optimizing its omni-channel mix to provide customers with the most convenient access to products and services.
